Montauk Library

Dear Dorothy,

Good Lessons for Bad Women on Saturday March 3 at the Montauk Library was a memorable event. We all had a great time with your presentation of historical figures, Eleanor Roosevelt, Mae West etc. The “lessons” these outspoken and sometimes dangerous women taught were truly inspiring. The audience response and feedback was very enthusiastic. I congratulate you for deftly 'channeling' such a bevy of wonderfully diverse women and connecting the threads of their remarkable lives through a believable theme.

Dear Dorothy,

The Riverhead Free Library's patrons are still talking about your superb performance of “Good Lessons from Bad Women. A good time was definitely had by all 120 people who attended.

I am in awe of how easy and effortless it was for me to book this performance. From the day we spoke you provided me with everything I needed in advance even including a tech sheet of how you needed the stage set up.

It was wonderful to witness the pure enjoyment of the many who attended. This was one of the best programs we have ever had, so entertaining, memorable and successful.

BROOKHAVEN NATIONAL LABORATORY

Dear Dorothy,

We at Brookhaven National Lab would just like to let you to know, what a terrific performance you gave! It was such a thrill to see so many “Bad” women that did so much good!

I must say it was the largest turnout we have had yet for this type of venue. We have also had several inquires for a possible follow up requesting one of your motivational presentations.

I can't tell you how much I personally appreciated your performance and your personable style. I must say I feel fortunate to have experienced your play. I look forward to working with you again in the near future.
